Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Postsecondary Education Section, Education, Culture and Tourism Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 951-8285) or to the Statistics Canada reference centre in:

| St. John's | (772-4073) | Winnipeg | (983-4020) |

Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingue et le système d'extraction de Statistique Canada.

Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Section de l'enseignement postsecondaire, Division de l'éducation, de la culture et du tourisme,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 951-8285) ou au centre de consultation de Statistique Canada à:

| St. John's | (772-4073) | Winnipeg | (983-4020) |

HIGHLIGHTS

- The number of full-time students in universities reached a new high in 1989 of 514,500, up 3% from 499,500 the previous year. This represented the eleventh successive increase, a 40% gain over 1978.
- Part-time enrolment in 1989 totalled 304,500, a decrease of 1,500 students from 1988. Despite this drop, part-time enrolment had increased by 88,500 students (41%) in the eleven-year period since 1978.
- Over the same eleven-year period, the number of women enroled full-time at universities increased at a faster rate than that of men (an annual average of 6% compared to 2%). In 1989, 235,000 women attended full-time undergraduate programs as compared to 217,500 men. It was the third year in a row that women outnumbered men at this level.
- The age profile of full-time students is changing reflecting an older student body. From 1978 to 1989, enrolment of students over 24 years of age grew faster (70%) than that of the 18-24 age group (32%). In 1989, the older group, which used to account for only 20% of all full-time students, accounted for 24%.
- The number of foreign students studying full-time in Canadian universities increased by 8%: from 25,000 in 1988 to 27,000 in 1989. This was the second annual increase since reaching the high of 31,000 in 1983. Despite the 1989 increase, the proportion of foreign student enrolment remained 1.5 percentage points below the peak recorded in 1983, when foreign students accounted for 7% of all full-time students.
- The total number of degrees, diplomas and certificates granted in 1989 was 146,500, up 2% from the previous year.
- For the eighth consecutive year, more women received university qualifications than men (79,500 compared to 67,000).

FAITS SAILLANTS

- Les effectifs universitaires à plein temps ont de nouveau augmenté en 1989 atteignant 514,500 étudiants, soit une hausse de 15,000 ou 3% par rapport à l'année dernière. Cette tendance existe pendant les onze dernières années et représente un gain de 40% depuis 1978.
- Les effectifs à temps partiel ont diminué de 1,500 étudiants depuis l'année dernière atteignant 304,500 en 1989. Malgré cette baisse, l'augmentation était encore de 88,500 étudiants (41%) pendant la période de onze ans depuis 1978.
- Pendant la même période de onze ans, le nombre de femmes inscrites à plein temps dans les universités a augmenté plus rapidement que le nombre d'hommes (6% comparé à 2% en moyenne annuelle). En 1989, il y avait 235,000 femmes poursuivant leurs études au premier cycle comparé à 217,500 hommes. On retrouvait à ce niveau là plus de femmes que d'hommes pour les trois dernières années.
- Le profil de l'âge des étudiants à plein temps change et se reflète par un corps étudiant plus âgé. De 1978 à 1989, les inscriptions du groupe d'âge des plus de 24 ans ont augmenté plus rapidement (70%) que pour les 18 à 24 ans (32%). En d'autres mots, le groupe plus âgé, qui comptait pour 20% des étudiants à plein temps, compte pour 24% en 1989.
- Le nombre d'étudiants étrangers poursuivant leurs études à plein temps dans les universités canadiennes est passé de 25,000 en 1988 à 27,000 en 1989; une hausse de 8%. C'est la deuxième année, depuis le maximum de 31,000 enregistré en 1983, qu'on remarque une augmentation. Malgré cette augmentation, la proportion des étudiants étrangers est encore 1.5 points en pourcentage plus bas que le sommet enregistré en 1983, lorsque les étudiants étrangers représentaient 7% des étudiants à plein temps.
- En 1989, 146,500 grades, diplômes et certificats ont été décernés; une hausse de 2% sur l'année précédente.
- Pour la huitième année consécutive plus de femmes (79,500) que d'hommes (67,000) reçoivent des titres universitaires.

Digitized by the Internet Archive in 2023 with funding from University of Toronto

INTRODUCTION

This publication provides data on fall enrolment in Canadian universities for the 1989-90 academic year (Series A) and on degrees, diplomas and certificates awarded by these institutions during the 1989 calendar year (Series B).

The enrolment and the graduation tables presented are the product of the enrolment and the graduation surveys conducted annually by Statistics Canada. Each of these surveys covers all degreegranting institutions. The response rate is 100%.

Data users may obtain special request tabulations apart from those found in this publication. For example, data can be distributed at a finer level or cross-classified in a variety of ways. Furthermore, the enrolment file offers a number of student characteristics not presented in the tables of this publication such as duration of program of study, expected year of completion and previous educational activity.

University Student Information System (USIS)

The information is obtained from the administrative records of Canadian degree-granting institutions mostly in a computerized format. A data base, called the University Student Information System (USIS) is then created. All data are subject to validity and relationship edits by the universities, in some cases by the province and by Statistics Canada. Final summary tabulations are then approved by university administrations prior to publication.

The enrolment survey collects information on student counts as of December 1st in all the provinces except Ontario where the reference date is November 1st. However, the graduation survey collects information on the qualification counts for the calendar year ending in December. To elaborate, this means that each student who attends a university in the fall session is counted only once annually, regardless of the number of programs in which the student is enrolled; but at graduation it is the number of degrees, diplomas and certificates awarded that are counted, not the individual students who received them.

The names of the institutions reporting to Statistics Canada are shown in Tables 5 and 6 for the enrolment survey and Table 18 for the graduation survey. In each case, affiliated institutions are denoted by indentation. Data for affiliated colleges not listed in these tables are invariably incorporated in the parent institution's figures. In the case of the "Université du Québec",

INTRODUCTION

La présente publication fournit des données sur les inscriptions d'automne dans les universités canadiennes pour l'année scolaire 1989-90 (la série A), ainsi que sur les grades, les diplômes et les certificats décernés par ces établissements pendant l'année civile 1989 (la série B).

Les tableaux sur les inscriptions et les grades décernés ci-inclus proviennent des enquêtes sur les effectifs et les grades décernés menées annuellement par Statistique Canada auprès de tous les établissements qui décernent des grades au pays. Le taux de réponse est de 100%.

Les utilisateurs de données peuvent obtenir des tableaux spéciaux ne figurant pas dans la présente publication, par exemple des données décomposées à un niveau plus détaillé ou regroupées de différentes façons. Le fichier des inscriptions offre de plus un certain nombre de renseignements non publiés sur les caractéristiques des étudiants, portant entre autre sur la durée du programme d'études, l'année prévue pour l'achèvement du programme et l'activité scolaire de l'étudiant l'année dernière.

Système d'information statistique sur la clientèle universitaire (SISCU)

Les données proviennent des dossiers administratifs des établissements qui décernent des grades au Canada. A partir de ces données, dont la plupart sont informatisées, Statistique Canada établit une base de données appelée Système d'information statistique sur la clientèle universitaire (SISCU). Toutes les données doivent subir des validations et des vérifications de relations entre éléments par les universités, dans certains cas par la province, et enfin par Statistique Canada. A la suite de ces opérations, des tableaux sommaires sont approuvés par les administrations universitaires avant leur publication.

L'enquête sur les inscriptions fait la collecte d'information sur le nombre d'étudiants au 1er décembre dans toutes les provinces sauf l'Ontario où la date de référence est le 1er novembre, tandis que l'enquête sur les titres décernés fait la collecte d'information sur le nombre de ces titres durant l'année civile qui se termine en décembre. Plus précisément, cela signifie que chaque étudiant qui fréquente une université à l'automne n'est compté qu'une fois, peu importe le nombre de programmes auxquels il est inscrit. Cependant, à la collation des titres, c'est le nombre de grades, de diplômes et de certificats décernés qui est pris en considération et non le nombre d'étudiants qui les reçoivent.

Les établissements qui participent à ces enquêtes figurent aux tableaux 5 et 6 pour l'enquête sur les inscriptions et au tableau 18 pour l'enquête sur les grades, les diplômes et les certificats décernés. Dans chaque cas, les établissements affiliés sont en retraits. Les données des collèges affiliés dont le nom ne se trouve pas dans les listes figurent toujours dans le total de l'établissement auquel ils sont rattachés. Dans le

however, there is no parent institution per se; all branches simply add up to the total for the institution.

Level Descriptions and Inclusions

First Professional Degree

First professional degrees sought or awarded are programs of study or degrees awarded at the undergraduate level. They differ from Bachelor's because they require a prior degree and/or a professional licence to practice a profession. The program of study may also contain practical elements that are not normally found in regular Bachelor's programs. The first professional degree level includes the following areas: law (L.L.B.), medicine (M.D.), optometry (O.D.), veterinary medicine (D.V.M.), dentistry (D.D.S., D.M.D.), theology (M.Div.), and education (B.Ed. requiring a prior Bachelor's degree).

Graduate Diploma and Certificate Enrolment

Enrolment in a one or two year graduate program leading to a university level diploma or certificate. The duration is normally one year for the diploma and two years for the certificate.

Graduate Diploma and Certificate Qualifications granted

A university level qualification obtained after successful completion of a one or two year graduate program other than those required for Master's or Doctorate. Normally, the Diploma program is of a one year duration and the Certificate program is of a two year duration.

Graduate Enrolment

Graduate enrolment includes all graduate level enrolments in degree, diploma, certificate and licence programs as well as master's qualifying years, special auditing, interns and residents and all other graduate accreditable courses not taken for the purpose of obtaining a qualification.

Graduate Qualification granted

Graduate qualifications include degrees, diplomas, certificates and graduate licences awarded. Graduate licence figures are included in the Master's degree data.

Non-university Level

"Non-university" refers to a community college level technology program or qualification offered at a university level institution. Enrolment figures within this area are included in the undergraduate "Other" category and qualification figures are included in the undergraduate diplomas and certificates awarded.

cas de l'Université du Québec, il n'existe pas d'établissement principal; les chiffres de chaque constituante sont additionnés pour former le total de l'établissement

Description des niveaux et inclusions

Premier grade professionnel

Les premiers grades professionnels, désirés ou décernés sont des programmes d'études ou des grades décernés au 1er cycle. Ils sont différents des baccalauréats parce qu'ils demandent soit un grade préliminaire soit une licence professionnelle permettant d'exercer une profession. Le programme d'études peut aussi contenir des éléments pratiques qui ne se trouvent normalement pas dans le programme ordinaire de baccalauréat. Le niveau de premier grade professionnel comprend les domaines suivants: droit (L.L.B.), médecine (M.D.), optométrie (O.D.), médecine vétérinaire (D.M.V.), art dentaire (D.D.S., D.M.D.), théologie (M.Div.) et éducation (B.Éd. qui exige un premier baccalauréat).

Effectifs au niveau du diplôme et certificat des 2e et 3e cycles

Les inscriptions à un programme de un ou deux ans au niveau des 2º et 3º cycles qui mène à un diplôme ou certificat universitaire. La durée de ces programmes varie mais normalement c'est un an pour le diplôme et deux ans pour le certificat

Diplôme et certificat du 2e et 3e cycles - titres recus

Un titre universitaire obtenu aprés avoir bien complété un programme de un ou deux ans au niveau des 2e et 3e cycles autre que pour une maîtrise ou un doctorat. La durée de ces programmes varie mais normalement c'est un an pour le diplôme et deux ans pour le certificat.

Effectifs des 2e et 3e cycles

Les effectifs des 2º et 3º cycles comprennent tous les programmes de 2º et 3º cycles suivis pour l'obtention d'un grade, d'un diplôme, d'un certificat ou d'une licence ainsi que les inscriptions à une année préparatoire de maîtrise, les auditions libres, les internes et les résidents et tous les autres cours à crédit des 2º et 3º cycles qui ne sont pas suivis pour l'obtention d'un titre.

Titres reçus des 2e et 3e cycles

Les titres des 2e et 3e cycles comprennent tous les grades, diplômes, certificats et licences décernés. Les données sur les licences des 2e et 3e cycles sont comprises dans le nombre de maîtrises

Niveau non-universitaire

Le niveau non-universitaire est un programme ou un titre de niveau collégial d'études technologiques offert dans un établissement universitaire. Les inscriptions à ce niveau sont inclus dans la catégorie "autres" du 1er cycle et le nombre de titres est inclu dans les données sur les diplômes et certificats décérnés au premier cycle.

"Other" Levels

"Other" refers to all courses and programs other than those related to degrees, diplomas and certificates offered by universities. At the undergraduate level, these are preliminary or upgrading years, special auditing, non-university diplomas and certificates, undergraduate licences and all other accreditable courses not taken for the purpose of obtaining a qualification. At the graduate level, it includes master's qualifying years, interns and residents, special auditing and all other accreditable graduate courses not taken for the purpose of obtaining a qualification.

Undergraduate Diploma and Certificate Enrolment

Enrolment in a one or two year undergraduate program leading to a university level diploma or certificate. Enrolments in licentiate and testamur programs are also included in this category.

Undergraduate Diploma and Certificate Qualifications granted

A university level qualification obtained after successful completion of a one or two year undergraduate program. Non-university technology diplomas and certificates awarded as well as undergraduate licences and testamurs are also included in this category.

Undergraduate Enrolment

Undergraduate enrolment includes all undergraduate enrolments in degree, diploma, certificate, undergraduate licence and testamur programs as well as preliminary or upgrading years, non-university programs, special auditing and all other undergraduate accreditable courses not taken for the purpose of obtaining a qualification.

Undergraduate Qualification granted

Undergraduate qualifications include all undergraduate degrees, diplomas, certificates and licences as well as non-university technology diplomas and certificates offered at a university.

Registration Status (Full-time/Part-time)

Since there is no commonly accepted definition of a part-time student, Statistics Canada reports full-time or part-time registration status as supplied by each reporting institution.

"Autres" niveaux

Les "autres" niveaux sont tous les cours, les programmes et les titres reliés à des grades, des diplômes et des certificats offerts par un établissement de niveau universitaire. Au premier cycle, celà peut être les études préliminaires ou de rattrapage, les auditions libres, les diplômes et certificats de niveau non-universitaire, les licences du 1er cycle, et tous les autres cours à crédit qui ne sont pas suivis pour l'obtention d'un titre. Aux 2e et 3e cycles, celà peut être l'année préparatoire de maîtrise, les internes et les résidents, les auditions libres et tous les autres cours à crédit non suivis à ce niveau pour l'obtention d'un titre.

Effectifs sur les diplômes et certificats du 1er cycle

Les inscriptions dans un programme de 1er cycle de un ou deux ans qui mène à un diplôme ou un certificat universitaire. L'inscription dans le programme de testamur est également inclus dans cette catégorie.

Diplôme et certificat du 1er cycle - titres recus

Un titre universitaire obtenu après avoir bien complété un ou deux ans d'un programme de 1^{er} cycle. Les diplômes et les certificats non-universitaires d'études technologiques décernés ainsi que les licences de 1^{er} cycle et les testamurs sont aussi inclus dans cette catégorie.

Effectifs du 1er cycle

Les effectifs du 1er cycle comprennent tous les programmes de 1er cycle suivis pour l'obtention d'un grade, d'un diplôme, d'un certificat ou d'une licence de premier cycle ainsi que le programme de testamur, les études préliminaires ou de rattrapage, les études de niveau non-universitaire, les auditions libres et tous les autres cours à credit de 1er cycle non suivis pour l'obtention d'un titre.

Titre reçu de 1er cycle

Les titres de 1er cycle comprennent tous les grades, diplômes, certificats et licences ainsi que les diplômes et les certificats de technologie non-universitaire offerts dans une université.

Type de fréquentation (Plein temps/Temps partiel)

Comme il n'existe aucune définition d'étudiant à temps partiel, Statistique Canada publie la fréquentation à plein temps ou à temps partiel suivant la définition utilisée dans le rapport de chaque établissement.

University Transfer Programs

University transfer students studying in community colleges in Manitoba, Alberta, British Columbia, Yukon and Northwest Territories are not included in this publication. Also not included are CEGEP students enrolled in a program of study which is a prerequisite for university entrance in the province of Quebec. Those students should be taken into consideration, however, in the calculation of indicators such as participation rates. A distribution of these full-time students by province and territory for fall 1989 follows:

Programmes de passage à l'université

Les étudiants des programmes de passage à l'université provenant des collèges communautaires du Manitoba, de l'Alberta, de la Colombie-Britannique, du Yukon et des Territoires du Nord-Ouest ne sont pas inclus dans cette publication. Aussi nous n'incluons pas les étudiants des CEGEP du Québec dont le programme est requis à l'admission aux universités québeçoises. Ces étudiants doivent cependant être inclus dans le calcul de certains indicateurs comme le taux de participation universitaire. La répartition de ces étudiants inscrits à plein temps par province et territoire à l'automne 1989 figure ci-dessous:

| Québec Manitoba | Alberta | British Columbia | Northwest Territories | Yukon | |
|-----------------|-----------|---------------------|--------------------------|------------------------------|---------|
| Queuec | Mariitooa | Alberta | Colombie- Britannique | Territoires du Nord-Ouest | . Yukon |
| 85,302 | 75 | 4,237 | 13,445 | 11 | 87 |

STATISTICAL REVIEW

Enrolment

Full-time enrolment at Canadian universities has continued the steady growth it had maintained over the last decade. In 1989, it reached a new high of 514,500¹, eclipsing last year's high of 499,500. Analysis of preliminary 1990 data suggests that this trend will continue for at least another year.

REVUE STATISTIQUE

Inscriptions

Les effectifs à plein temps des universités canadiennes continuent d'augmenter constamment depuis plus d'une décennie pour atteindre 514,500¹ étudiants en 1989, en hausse par rapport au chiffre élevé de 499,500 enregistré l'année dernière. L'analyse des données préliminaires pour 1990 indique que cette tendance à la croissance continue.

TEXT TABLE I. Fall Enrolment by Level, Type of Attendance and Year, Canada

TABLEAU EXPLICATIF I. Inscriptions d'automne selon le niveau, le type de fréquentation et l'année, Canada

| Level and type of attendance | 1970 | 1975 | 1980 | 1985 | 1987 | 1988 | 1989 | | |
|---------------------------------|----------------------|-------|-------|-------|-------|-------|-------|--|--|
| Niveau et type de fréquentation | 1970 | 1975 | 1960 | 1905 | 1967 | 1900 | 1909 | | |
| | thousands - milliers | | | | | | | | |
| Total enrolment - Inscriptions | | | | | | | | | |
| totales | 200 5 | 200.5 | 200 5 | 467.5 | 400.0 | 499.5 | 514.5 | | |
| Full-time - Plein temps | 309.5 | 369.5 | 382.5 | | 486.0 | | | | |
| Part-time - Temps partiel | 156.5 | 185.5 | 245.0 | 285.0 | 294.5 | 306.0 | 304.5 | | |
| Undergraduate - 1er cycle | | | | | | | | | |
| Full-time - Plein temps | 276.0 | 328.5 | 338.0 | 412.5 | 428.0 | 439.5 | 453.0 | | |
| Part-time - Temps partiel | 142.0 | 158.5 | 213.0 | 250.0 | 258.0 | 268.5 | 265.5 | | |
| Outside and the second | | | | | | | | | |
| Graduate - 2e et 3e cycles | | | | | | | | | |
| Full-time - Plein temps | 33.5 | 41.0 | 44.5 | 55.0 | 58.0 | 60.0 | 61.5 | | |
| Part-time - Temps partiel | 14.5 | 27.0 | 32.0 | 35.0 | 36.5 | 37.5 | 39.0 | | |

The growth was, however, not equally distributed across the various levels of study. Since 1970, full-time undergraduate enrolment had increased by 64% while full-time graduate enrolment had gone up by 84%. This pattern was even more dramatic for part-time credit enrolment levels, with increases of 87% for undergraduates and 172% for graduates. Figure 1 presents a comparison of growth indices using 1970 as a base year.

Patterns of enrolment change since 1970 were quite different for each of the major fields of study (Text Table II and Figure 2). The Social Sciences made the highest gains in absolute terms: 104,500 full-time students and 72,000 part-time. Substantial gains of 10,500 to 18,500 full-time and 4,500 to 19,500 part-time were made in most of the other fields. While enrolment in the field of education tended to remain almost unchanged at the full-time level, it did gain 19,500 part-time students. As can be observed in Figure 2, the growth in part-time enrolment had been particularly marked in Fine Arts, Mathematics/Physical Sciences, Health Professions and Agriculture/Biological Sciences.

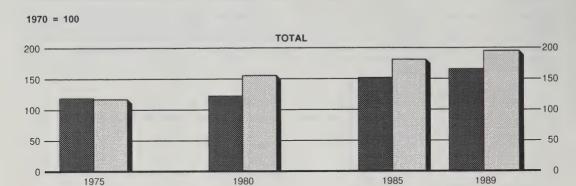

L'augmentation n'est cependant pas répartie également entre les niveaux d'études universitaires. Depuis 1970, les effectifs à plein temps du 1er cycle ont progressé de 64% alors que les effectifs des 2e et 3e cycles se sont accrus de 84%. La différence est même plus importante dans les cours à temps partiel dotés de crédits qui ont augmenté de 87% pour le niveau du premier cycle et de 172% pour les niveaux des 2e et 3e cycles. La figure 1 compare les indices de croissance en utilisant 1970 comme année de réference.

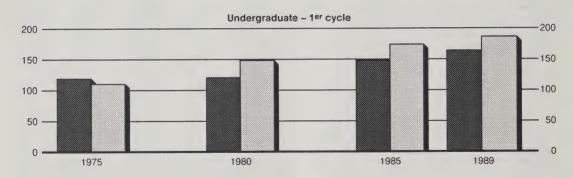

L'évolution des effectifs varie beaucoup d'un domaine d'études à l'autre depuis 1970 (voir le tableau explicatif II et la figure 2). Les sciences sociales affichent, en nombres absolus, les plus hauts gains de 104,500 étudiants à plein temps et de 72,000 à temps partiel. De fortes augmentations de 10,500 à 18,500 étudiants à plein temps et de 4,500 à 19,500 à temps partiel ont aussi influencé la majorité des autres domaines d'études. Les inscriptions à plein temps en éducation demeurent presque les mêmes, c'est au temps partiel qu'on remarque une hausse de 19,500 étudiants. Comme l'indique la figure 2, les effectifs à temps partiel ont grimpé de façon importante, surtout dans les domaines des beaux-arts, des mathématiques/sciences physiques, des professions de la santé et de l'agriculture/sciences biologiques.

¹ All data in the Text Tables and all totals quoted in the analysis have been rounded to the nearest 500. All calculations displayed in this section, however, have been performed on unrounded figures appearing in the regular statistical tables of this publication.

¹ Toutes les données présentées dans les tableaux explicatifs et dans l'analyse sont arrondies aux 500 près. Mais les calculs de pourcentages contenus dans cette section ont été fait sur des chiffres non-arrondis qui proviennent des tableaux statistiques détaillés de cette publication.

| Part-time - Temps partiel | 2.0 | 3.5 | 5.0 | 11.5 | 10.5 | 10.0 | 10.0 |
| Other - Autres | | | | | | | |
| Full-time - Plein temps | 82.0 | 78.0 | 72.0 | 79.0 | 79.5 | 82.0 | 83.0 |
| Part-time - Temps partiel | 98.5 | 77.0 | 97.5 | 109.5 | 108.5 | 113.5 | 105.0 |

At the provincial level, there had been considerable variation in the growth of full-time enrolment since 1970. Enrolment in Quebec had almost doubled over the period while Newfoundland and Ontario, at 82.5% and 72% respectively, were the only other provinces to exceed the national growth rate. By comparison, the increases in Manitoba, Prince Edward Island and British Columbia were all under 39%.

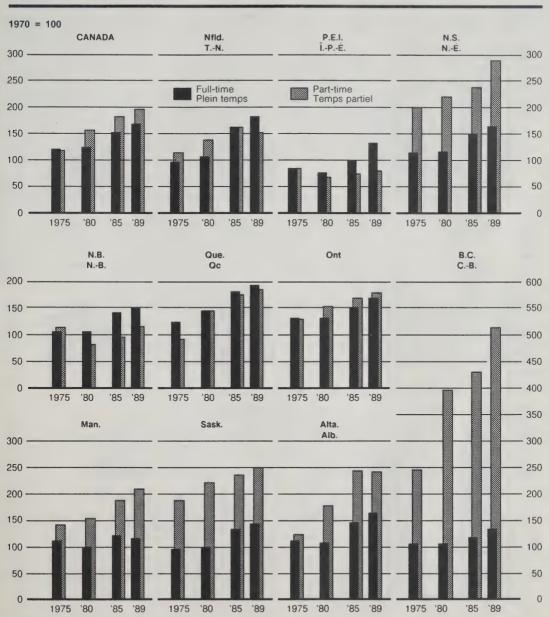

British Columbia lead all the provinces with its increase in part-time enrolment. Five times as many part-time students were studying in that province compared to 1970. Nova Scotia had almost three times as many students and Saskatchewan and Alberta had well over two times the number of students they had in 1970. Part-time enrolment had decreased since 1970 in Prince Edward Island.

Depuis 1970, il y a eu des vaciations considérables dans les effectifs à plein temps au niveau des provinces. Les inscriptions au Québec ont presque doublé pendant la période tandis que Terre-Neuve (à 82.5%) et Ontario (à 72%) sont les deux seules provinces à dépasser le taux de croissance national. En comparaison, les hausses au Manitoba, à l'Île-du-Prince-Édouard et en Colombie-Britannique étaient toutes audessous de 39%.

La Colombie-Britannique devance toutes les provinces avec son augmentation des effectifs à temps partiel. Si on compare à 1970, presque cinq fois plus d'étudiants sont inscrits à temps partiel dans cette province. La Nouvelle-Écosse a presque trois fois plus d'étudiants et la Saskatchewan et l'Alberta ont plus de deux fois le nombre d'étudiants à temps partiel qu'elles avaient en 1970. Les effectifs à l'Île-du-Prince-Édouard ont diminué depuis 1970.

Degrees, Diplomas and Certificates

The number of university qualifications granted in 1989 was 146,500, close to 3,000 more than the previous year. The index of growth since 1970 (base year = 100) had reached a new high of 191. This trend was much more pronounced for females than for males (Figure 4). In fact, despite a slight decline in 1980, the number of female graduates had almost tripled since 1970, while the male growth index only went up to 139. This pattern was even more dramatic at the graduate level, with the growth index for females going up to 421 as compared to only 136 for males. However, males still outnumber females in receiving graduate qualifications.

Grades, diplômes et certificats

En 1989, 146,500 grades, diplômes et certificats universitaires ont été décernés, une augmentation de presque 3,000 comparativement à l'année dernière. L'indice de croissance depuis 1970 (année de réference = 100) a atteint cette année un nouveau sommet à 191. Cette tendance est beaucoup plus marquée chez les femmes que chez les hommes (Figure 4). En fait, malgré un faible déclin en 1980, le nombre de diplômées a presque triplé depuis 1970. L'indice chez les hommes n'atteignait que 139. Cette tendance est encore plus prononcée au niveau des deuxième et troisième cycles où l'indice de croissance du nombre de titres décernés aux femmes a atteint 421 alors que celui des hommes n'est qu'à seulement 136. Cependant, le nombre d'hommes recevant des titres des 2º et 3º cycles dépasse encore celui des femmes.

In 1989, there were over three times as many students graduating in the fields of Fine Arts and Social Sciences than there were in 1970. In absolute numbers, however, this represented an increase in Fine Arts from 1,500 to 4,500 while in Social Sciences from 18,000 to 58,000. Graduates in the Social Sciences accounted for 40% of all graduations compared to 1970 when they accounted for 24%. The field of Education had the largest decline in the proportion of all graduates. In 1970, 21% of graduates had a degree in the field of Education; in 1989, 17%.

Within the Social Sciences, Administration/ Accounting/Commerce were the disciplines that contributed the most to the overall growth (close to 419%). While the number of graduations in Computer Science was still small, 3,500 in 1989, it had grown considerably since 1970.

Provincially, growth in the number of graduations paralleled enrolment increases (Text Table VI and Figure 6). Newfoundland experienced the highest growth rate followed by Quebec, Ontario, British Columbia, Alberta and Nova Scotia.

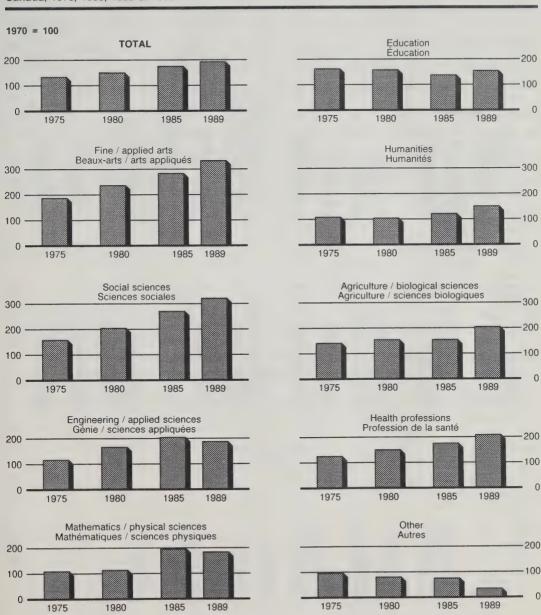

Il y a plus de trois fois le nombre d'étudiants qui graduent dans les beaux-arts et les sciences sociales qu'en 1970. En nombres absolus, cela représente une augmentation de 1,500 à 4,500 pour les beaux-arts et une augmentation de 18,000 à 58,000 pour les sciences sociales. Les diplômés dans les sciences sociales représentent 40% de tous les diplômés si on compare à 1970 où ils représentaient 24% des diplômés. C'est dans l'éducation que les proportions de diplômés ont le plus diminué. En 1970, 21% des diplômés recevaient un titre en éducation et en 1989, 17%.

À l'intérieur des sciences sociales, administration/comptabilité/commerce sont les sujets qui ont le plus contribué à l'augmentation générale (prés de 419%). Même si le nombre de titres décernés en science informatique est encore faible, 3,500 en 1989, sa croissance depuis 1970 a été considérable.

Au niveau provincial, l'augmentation du nombre de diplômés s'effectue au même rythme que celle des inscriptions (voir le tableau explicatif VI et la figure 6). Terre-Neuve a subi la plus forte augmentation suivie par le Québec, l'Ontario, la Colombie-Britannique, l'Alberta et la Nouvelle-Écosse.

International Student Participation in Canadian Education

"...Canada...must do more to encourage students from other countries to study here..."

Secretary of State, Report On International Students May 1989

he Facts ou Need o Know

The new 1989 edition of International Student Participation In Canadian Education is dedicated to a comprehensive review of international students in Canada. The information it provides will help planners and decision makers to strengthen Canada's position in the International Student marketplace.

ction A: Discover the ographical patterns

ne tables enable trend watchers and icy planners to examine how both numbers and the level of study of se students vary within unique ographical groupings:

by Major Source Countries: Hong Kong, USA, China, Philippines, Japan.etc

by Economic Development Categories: East European, Newly Industrialized, High Income Oil Exporters, etc

by Selected Groupings: Commonwealth, OPEC, Latin America, etc

Section B: Match these patterns

In this section, provincial analysts as well as university planning and admissions officers may gauge their current achievements as well as the educational challenges they face. Six tables segment the canadian international student market in the following important ways:

- by 60 participating Canadian Universities, highlighting the percentage of International to Total students, and tuition fees!
- by 40 Fields Of Study, including Law, Nursing, and Engineering, and
- by 200 Source Countries, from Algeria to Vanuatu

Section C: The pattern of Canadian Official Development Assistance

Five tables examine how Canadian assistance, dominated by CIDA, supports the education of 3300 international students and 2700 international trainees in Canada.

Here's How To Order

International Student Participation in Canadian Education, 1989 (Catalogue No. 81-261) is priced at \$20 in Canada, US\$ 24 in the United States and US\$ 28 in other countries.

To order, write to Publication Sales, Statistics Canada, K1A 0T6, or contact your nearest Statistics Canada Regional Reference Centre.

Participation des étudiants étrangers dans l'éducation canadienne

« ... le Canada... doit inciter davantage les étudiants d'autres pays à venir étudier ici... »

Secrétariat d'État, Rapport sur les étudiants étrangers Mai 1989

Ce qu'il vous faut savoir

Participation des étudiants étrangers dans l'éducation canadienne, 1989 présente un rapport approfondi sur les étudiants étrangers au Canada. L'information contenue aidera les planificateurs et les décideurs à consolider la place du Canada sur le marché de l'éducation des étudiants étrangers.

Section A : Découvrez les tendances géographiques

Neuf tableaux vous permettent d'examiner les variations du nombre d'étudiants et de leurs niveaux d'études à l'intérieur de regroupements géographiques uniques :

- par principaux pays d'origine: Hong Kong, États-Unis, Chine, Philippines, Japon, etc.;
- par catégories de développement économique: Pays de l'Europe de l'Est, pays nouvellement industrialisés, pays exportateurs de pétrole à revenu élevé, etc.; et
- par regroupements de pays donnés: Commonwealth, OPEC, Amérique latine, etc.

Section B : Comparez ces tendances

Analystes provinciaux, planificateurs et agents d'admission d'université peuvent évaluer leurs réussites et les défis qu'ils rencontrent grâce aux six tableaux segmentant comme suit le marché canadien de l'éducation des étudiants étrangers en ses parties importantes:

- par 50 universités canadiennes participantes, en mettant en relief le pourcentage d'étudiants étrangers sur le nombre total d'étudiants et les frais de scolarité de chaque établissement;
- par 40 domaines d'études, comprenant le droit, les sciences infirmières, l'ingénierie, etc.; et
- par 200 pays d'origine, de l'Algérie à Vanuatu.

Section C : La participation de l'Aide publique canadienne au développement

Cinq tableaux montrent comment l'aide canadienne, grâce notamment à l'ACDI, appuie l'éducation de 3300 étudiants étrangers et 2700 stagiaires étrangers au Canada.

Pour commander

Participation des étudiants étrangers dans l'éducation canadienne, 1989 (numéro 81-261 au catalogue) coûte 20 \$ au Canada, 24 \$ US aux États-Unis et 28 \$ US dans les autres pays.

Pour commander, écrivez à : Vente des publications, Statistique Canada, K1A 076 ou communiquez avec le centre de consultation régional de Statistique Canada le plus près de chez vous.

Statistique Canada Statistics Canada Canad

INTERESTED IN ACQUIRING A CANADIAN ORIGINAL?

Then *Canadian Social Trends* is the acquisition for you. A first on the Canadian scene, this journal is claiming international attention from the people who need to know more about the social issues and trends of this country.

Drawing on a wealth of statistics culled from hundreds of documents, *Canadian Social Trends* looks at Canadian population dynamics, crime, education, social security, health, housing, and more.

For social policy analysts, for trendwatchers on the government or business scene, for educators and students, *Canadian Social Trends* provides the information for an improved discussion and analysis of Canadian social issues.

Published four times a year, *Canadian Social Trends* also features the latest social indicators, as well as information about new products and services available from Statistics Canada.

CANADIAN SOCIAL TRENDS

(Catalogue No. 11-008E) is \$34 annually in Canada, US\$40 in the United States and US\$48 in other countries.

To order, write to Publication Sales, Statistics Canada, Ottawa, Ontario, K1A 0T6 or contact the nearest Statistics Canada Regional Reference Centre listed in this publication.

For faster service, fax your order to 1-613-951-1584. Or call toll free 1-800-267-6677 and use your VISA or MasterCard.

VOUS DÉSIREZ FAIRE L'ACQUISITION D'UNE OEUVRE ORIGINALE?

Alors **Tendances sociales canadiennes** est la publication qu'il vous faut. Première en son genre sur la scène canadienne, cette revue retient l'attention des gens d'ici et d'ailleurs qui désirent en savoir plus sur les questions sociales de l'heure au pays.

À l'aide d'abondantes statistiques extraites de nombreux documents, **Tendances sociales canadiennes** brosse le tableau de la dynamique de la population canadienne, de la criminalité, de l'éducation, de la sécurité sociale, de la santé, de l'habitation et de plusieurs autres sujets.

Que ce soit pour les analystes de la politique sociale, les analystes des tendances oeuvrant au sein des administrations publiques et du monde des affaires, les enseignants ou encore les étudiants, *Tendances sociales canadiennes* dégage l'information nécessaire à des discussions et des analyses approfondies relativement aux questions sociales.

Tendances sociales canadiennes présente également les plus récents indicateurs sociaux de même que des renseignements relatifs aux produits et services qu'offre Statistique Canada.

TENDANCES SOCIALES CANADIENNES

Ce trimestriel (No 11-008F au catalogue) se vend 34 \$ l'abonnement annuel au Canada, 40 \$ US aux États-Unis et 48 \$ US dans les autres pays.

Pour commander, veuillez écrire à Vente des publications, Statistique Canada, Ottawa (Ontario), K1A 0T6 ou communiquer avec le Centre régional de consultation de Statistique Canada le plus près (voir la liste figurant dans la présente publication).

Pour un service plus rapide, commandez par télécopieur au 1-613-951-1584. Ou composez sans frais le 1-800-267-6677 et utilisez votre carte VISA ou MasterCard.

Questions About Canada?

FIND YOUR ANSWERS IN THE CANADA YEAR BOOK 1990
